

Focus Group Training Modules Internet Links to Tutorials

Instructions: To review each presentation, you can double click on these links from this page. If that does not work, just copy and paste each one into a browser to view. Once it can be viewed, simply click on the 'play' button. To maximize the Power Point Slides view on the left of the screen (Modules 1, 3 and 4), click the tiny button in the upper right hand corner of the slide section to make it larger. And you can click and drag the instructor view to the side. If you lose the PP point slide view – just press the number 1 screen view on the bottom of the screen and it will return. Module 2 does not have the instructor view, only the audio and the PP slides. Module 5 is a video of a “pretend” focus group so it also only has one screen view. If you have any questions or problems viewing these, please contact: [Barbara Mawn@uml.edu](mailto:Barbara_Mawn@uml.edu).
